Semester: 6th
Subject Name:- UHV & Code:- HS-30401.
Branch (s): - Computer and Civil Engineering

SPRING MID SEMESTER EXAMINATION-2025

School of Computer Engineering and Civil Engineering
Kalinga Institute of Industrial Technology, Deemed to be University

Universal Human Values
[HS 30401]

Time: 1 1/2 Hours **Full Mark: 20**

Answer Any four questions including question No.1 which is compulsory.
The figures in the margin indicate full marks.
Candidates are required to give their answers in their own words as far as practicable and all parts of a question should be answered at one place only.

Q.1 Answer all the questions. [1 Mark X 5]

a) What is Self-exploration?

b) Why are we calling food also as a physical facility? It is the basic need of a human being.

c) What is the difference between knowing and assuming?

d) What is right feeling?

e) If a person is making the same mistake again and again, even after drawing his attention to the mistake, can we say his intention is right?

2 How do Right Understanding, relationship and physical facilities help in fulfilling the aspirations of human beings? [5 Marks]

3 Can the activities of the self be distinctly understood from the activities of the body? Name the activities and elaborate them with suitable example. [5 Marks]

4 The statement "I am the seer, doer and enjoyer, the body is my instrument". Explain the statement with suitable example. [5 Marks]

5 What is Respect? When do we feel we have been disrespected? Explain. [5 Marks]

SPRING MID SEMESTER EXAMINATION-2025

Universal Human Values [HS 30401]
Scheme of Evaluation

Q.1	Answer all the questions.	
a)	**What is Self-exploration?** **Ans:** Self-exploration is a process of seeing the truth about a reality on our own right, by our own observation and investigation. Through this process, we understand the reality and our participation (value) with it.	[1 Mark]
b)	**Why are we calling food also as a physical facility? It is the basic need of a human being.** **Ans:** Food is physio-chemical in nature, and it facilitates to nurture our body, therefore we are calling it as physical facility. In fact, real purpose of physical facility is to serve our basic needs. Over indulgence will not come under right utilisation.	[1 Mark]
c)	**What is the difference between knowing and assuming?** **Ans:** Knowing is to the reality as it is, in its completeness, assuming is some acceptance about the reality which may or may not be same as the reality as it is.	[1 Mark]
d)	**What is right feeling?** **Ans:** Feeling that is naturally acceptable to us is the right feeling.	[1 Mark]
e)	**If a person is making the same mistake again and again, even after drawing his attention to the mistake, can we say his intention is right?** **Ans:** Yes. There is problem with his competence; this we can verify for our own case, we have right intention but we keep making many mistakes again and again.	[1 Mark]
2	**How do Right Understanding, relationship and physical facilities help in fulfilling the aspirations of human beings?** **Ans**. Our basic aspirations are happiness (mutual fulfilment) and prosperity (mutual prosperity). Happiness is ensured by the relationships with other human beings and prosperity is ensured by working on physical facilities. Relationship refers to the interpersonal relationships that a person builds in his/her life - at home, at the workplace and in society. Physical Facilities includes the physiological needs of individuals and indicates the necessities as well as the comforts of life. It means the feeling of having or being able to have more physical facilities than is needed. Today we are unable to have fulfilling relationships all the time: in family, outside family, and as a society - in the world at large. If there is a problem in relationship, we feel uneasy, it bothers us. Even if we are interacting with someone, and something we said or did offends them, it makes us uneasy; i.e. we want mutual fulfilment in relationship. Similarly, we want to feel prosperous, but end up working only for accumulation of wealth. We want to enrich nature, but are exploiting it, destroying it. But our natural acceptance is that we want to live in harmony with nature. The reason behind these problems is that we have to focus on one more aspect, i.e. right understanding. Right Understanding refers to higher order human skills - the need to learn and utilize our intelligence most effectively. In order to resolve the issues in human relationships, we need to *understand* them first, and this would come from '*right understanding of relationship*'. Similarly in order to be prosperous and to enrich nature, we need to have the '*right understanding*'. The '*right understanding*' will enable us to work out our requirements for physical facilities and hence correctly distinguish the difference between wealth and prosperity. With nature as well, we need to understand the harmony in nature, and how we can complement this harmony.	[1.5 Mark] [1.5 Mark]

	1. Right Understanding 2. Relationship — 3.Physical Facilities Happiness - with human beings — Mutual Prosperity - with rest of the nature Thus we can say that when we use right understanding with relationships it gives us mutual fulfilment because if we have right understanding, then we can be happy in ourselves and work to have fulfilling relationships with humans and mutual prosperity with nature. If we do not have the right understanding, then we have problems. Thus, our happiness depends on the fulfilment of these three basic requirements.	[2 Mark]
3	**Can the activities of the self be distinctly understood from the activities of the body? Name the activities and elaborate them with suitable example.** **Ans**. If we look at the variety of activities that we are engaged in commonly - we see that we can put them in three categories: 1. Activities that are going on in the self 2. Activities that are going on in the body 3. Activities involving both the self and the body Knowing, assuming, recognizing and fulfilling are the activities involving both the self and the body. 1. **Activities of recognizing and fulfilling in the body:** Apart from the activities of Breathing, Heartbeat, Digestion etc., the activities of the body can also be understood as recognition and fulfilment. In fact, the mutual interaction between any two material entities can be understood as recognition and fulfilment of their relationship. For example when we are thirsty and drink water, the body absorbs the water to the extent needed and uses for the nourishment of the various organs. Here, body recognizes its relation with water and fulfils it. Recognizing — Fulfilling 2. **Activities of knowing, assuming, recognizing and fulfilling in the self ('I'):** When it comes to self (jivan or 'I'), which is a conscious entity; in addition to 'recognizing and fulfilling', there is also the activity of assuming and that of knowing. In fact, recognizing and fulfilling in case of human beings will depend upon knowing and/or assuming. **a. We assume** - We all make assumptions and our response (recognition and fulfilment) is dependent on the assumption. For ex.: If I see a snake and assumed it to be a rope, I shall respond differently to it, than if I take it to be a snake itself. We call this activity 'assuming or mannana'. **b. We recognize** - We all recognize things today, we recognize a variety of things. Like, we recognize water, our parents, friends, etc. We call this activity 'recognizing or pahachaanana'. The recognizing in 'I' depends on assuming. **c. We fulfil** -The response that follows recognition is called the activity of 'fulfilling or nirvaha karna'. The fulfilment depends on the recognition. For ex.: Once we recognize water, we take it. Taken together we can write it as (in I): Assuming — Recognizing — Fulfilling There is another activity that exists in us (in 'I'). This activity is called 'knowing'. Knowing means we have the right understanding - the understanding of harmony at all levels of our living. When we have the right understanding, when we have the knowledge of reality, it is definite, and then assuming becomes according to the knowing, and hence recognizing and fulfilling becomes definite, or according to knowing. Until then, it is subject to beliefs and assumptions, and these keep changing. When we list these down; Knowing Desiring, thinking etc. Breathing, heart- beat, etc. Activities are : Knowing, assuming, Recognizing, fulfilling	1 mark 2 mark 2 mark
4	**The statement "I am the seer, doer and enjoyer, the body is my instrument". Explain the statement with suitable example.**	

	Ans. There is a relation between the self and body that body act as an instrument of self. Whatever self thinks body performs it physically. Body does not decide itself. We can verify this by the following discussion. **I am the seer**: When we are reading a book or listening, when someone is explaining something to us, when we are watching a scenery or when we are thinking - we are engaged in the activities of 'seeing' or understanding. Now when we see some nice scenery we say 'I am seeing' that means our self 'I' see via the eyes, the eyes don't see, they are just instruments, that unable me to see something outside. Different images are formed in the eyes every time, but it is I who is able to relate it to the meaning of that image every time. Similarly, I can see inside 'in me' also - without the eyes. For example I can see that I am getting angry. In this case I understand or know or am aware that I am getting angry. When I see outside the body works as an instrument. **I am the doer**: once I have seen/ understood something, I am the one who decides what to do or not to do. I am the doer. For example, when I see the scenery I am the one who decide to take a picture of the scenery. I use my hands to pick camera and click a picture. The hands in the body are thus used as an instrument. In this way I work with my hands and legs. **I am the enjoyer**: I saw the scenery and I took the picture. I am the seer and doer so far. When I see the picture I like it. I am the one that enjoys it. Thus there is a continuity of being the seer, doer and enjoyer. Similarly when I eat, I am the one that gets the taste - from the tongue. Suitable example **1 mark**	2 Mark 2 mark
5	**What is Respect? When do we feel we have been disrespected? Explain.** **Ans:** Respect means accepting individuality and **doing right evaluation (to be evaluated as I am).** Our basis for respect today is largely quite contrary to our discussion above. Instead of respect being a basis of similarity or one of right evaluation, we have made it into something on the basis of which we differentiate that is by respecting you means you are doing something special, because you are special or are in some special position. Thus all of us are running around seeking respect from one another by trying to become something special. Today, we are differentiating in the name of respect, we either differentiate people on the basis of their body, on the basis of their wealth and possessions or on the basis of their beliefs. There is no notation of respect in terms of right evaluation, thus there is no real feeling of relationship, only one of differentiation. On The basis of Body: Sex/gender, Age, Race and Physical strength. • Sex/gender: We ignore the fact that being male or female is an attribute of the body, and not an attribute at the level of self. In many countries, people even prefer a male child to a female child and in some other societies, the other way round. Hence differentiate in giving respect on the basis of gender called male and female. • Age: We have notions such as "one must respect elders". There is no such notion as respect youngers. Here we are again evaluating at the level of the body that is age is related to the body and not to self. • Race: If the person is of the same race as oneself, then we treat them differently. For example, we differentiate on the basis of skin colour: white , brown, black etc. or on the basis of whether the person is of Aryan, Mongolian race etc. or on the basis of caste. Again here, we donot do the evaluation on the basis of self, but on the basis of the body. • Physical strength: If someone is stronger we again treat them differently, this is at the level of the body. In fact we think that we are respecting the other while it is fear: that is if we do not treat them like this we will be harmed. **On the basis of Physical facilities:** • Wealth: we differentiate people because some have wealth than others that is we term as a "rich person" gets idolized. We do not even bother to find out	1 mark 1.5 mark 1 mark

	whether such people are feeling prosperous, or if they just have wealth. In this way we are over-evaluating physical facilities first which are just meant to fulfil the needs of the body, and on this basis we are wrongly identifying our relationship. • Post: We try to respect on the basis of a person's position. The post is wrongly evaluated as the mark of a person's excellence and differentiation sets in. The post is considered importance either on the basis that is gives more physical facilities or on the basis that certain positions are assumed to be important. On the basis of beliefs: • Isms: This means any beliefs in terms of a "thought-system" that we have , or that we have adopted. There are also many modern 'isms' such as capitalism, socialism, communism etc. The people following these sets of beliefs are called capitalist, socialist, communists etc and so on. The people that have adopted them or are following them have been exposed the them. However all beliefs as we have seen are at the level of desires, thoughts and expectations in self. There is no definiteness at this level, and hence this becomes a cause for differentiation. • Sects: People of one sect only consider those with a similar belief system to be their 'own' and worthy of respect. Similarly, if you belong to one sect, you will respect people who belong to the same sect and not respect the people who do not belong to the same sect and so on. Regarding the information – if you have one set of information, say, as an engineer, you will be respecting engineers and not, for example, doctors and vice-versa. Respect is given on the basis of the sect that you belong to, on the basis of information you have. But this all leads to discrimination, therefore, leads to disrespect. • Info: basis of differentiation is founded on the main misunderstanding that if the pre-conditioning of the other matches with mine then the other is like me, otherwise he is not like me, while the reality is that every human being is similar to me. All put together, this is the way we generally give respect and these are the bases of giving respect – the Body, physical facility and beliefs. You can see all this is differentiation and it is ultimately leading to disrespect because this is something which is not naturally acceptable.	1.5 mark
